To whom it may concern

PricewaterhouseCoopers Georgia is pleased to provide a reference for Steelcase - Office Technologies.

As a global firm, PricewaterhouseCoopers works closely with Steelcase world-wide in ensuring our offices are equipped with the most modern and functional furnishings. The reputation, credibility and innovation of Steelcase are unsurpassed.

It was a great relief to learn that Steelcase - Office Technologies was starting in Georgia at the same time we were opening our office here in Tbilisi. The ability to access Steelcase designers and products was so important as we created the design and image of our office space.

Today the office is truly a blend of functionality and professionalism, complimented by all who visit us.

I am pleased to recommend the service of Steelcase - Office Technologies and the products of Steelcase.

Respectfully,

Clifford Isaak,
Managing Director
